Hiding Courses

You can change the order of how the courses are listed and hide the ones you aren't using from yourself.

- Go to "My Blackboard" Page
- Find My Courses
- Click on the GEAR ICON at the top of the My Courses Panel
- Clear all of the checkboxes in the row for that course you don't want to see listed, and click "submit."
- You can always come back later and turn it back on if you want.
