My Screen—Share what is currently on your computer screen with participants instantly. If you have multiple monitors connected to your computer, select the monitor you want to share. Participants will see everything on your screen within their Content Viewer, while you see it with session controls at the top of your screen.

File (Including Video)—Locate files you want to share, then click Open. If you select multiple files for sharing, you can access them during your meeting using tabs at the top of the Content Viewer.

Note: If notes have been added to a shared PowerPoint presentation created with PowerPoint 2010 or earlier, they will be available to the presenter in the PPT Notes panel. For best results when sharing presentations created with PowerPoint 2013 or later, use Share Application.

Application—Select an application from the list of running applications, then click Share. Participants can see the application on your computer, even if they do not have it installed on their own.

Best Practice: Open the application before you share it. If you don’t have the application open, click Other Application, choose the application, then click Share.

If you have multiple monitors connected to your system, avoid sharing applications displayed on different monitors.

Whiteboard—Open a new whiteboard for annotation. Use the annotation tools to draw or write on the whiteboard. Grant annotation privileges to allow your participants to also collaborate.

Web Content—Enter a URL and click OK. The web content opens in the Content Viewer and participants can navigate the site independently.

Tip: Sharing Web Content is useful when you want participants to complete a form individually.

Web Browser—Enter a URL and press Enter. Participants can see the website in your browser. You control what is displayed in the browser and participants follow along as you navigate the web.
Remote Computer—Select a computer and click Connect. Enables control of remote computer. The Access Anywhere agent is required and may not be available for all WebEx users.

My Meeting Window—Allows you to show your meeting window to participants. They will see the meeting and panels exactly as you do.

Best Practice: Close the Chat panel before sharing your meeting window.
